

# VOTE AGAINST VIOLENCE!

V Is For Vote is a grassroots voting campaign created with and by thousands of local V-Day activists and individuals in the U.S. V-Day activists will mobilize register and get out the vote efforts. V-Day is outreaching to the Presidential candidates (of both political parties) urging them to make Violence Against Women a central issue of their campaign platforms, not a sideline or “women’s” issue. Ultimately, V-Day will mobilize its activism into political power through V Is For Vote as V-Day supporters “Vote to End Violence.”
